California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	911 Outage

911 Outages/Remote/Community Isolations:

Communities of Lee Vining and Bridgeport, Mono County

On 12/27/17, the California State Warning Center (CSWC) was notified of a wireline (landline) outage for the communities of Lee Vining and Bridgeport in Mono County. The outage is affecting approximately 536 landline customers in Lee Vining and 204 in Bridgeport.

- Wireless calls are not affected.
- Mono County Sheriff's Office (MCSO) is affected by this outage and is currently out of service, however, they have rerouted their 9-1-1 landline calls to Inyo County Sheriff's Office (ICSO).
- At 1541 hours, CA 911 Branch advised, Frontier has located the cut and has crews en route to repair the line.
- MCSO will continue to route their 9-1-1 calls to ICSO.
- Cal OES Duty Officers were notified and are monitoring.
- CA 911 Branch will continue to provide updates as they become available.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Nothing significant to report.

Active Weather Warnings, Watches and Advisories by County:

Heavy Rain/ Flash Flooding							
River Flooding							
Severe Weather							
Heat							
Tropical							

-  High Threat
-  Moderate Threat
-  Slight Threat
-  No Discernible Threat

WEATHER SYNOPSIS BY REGION

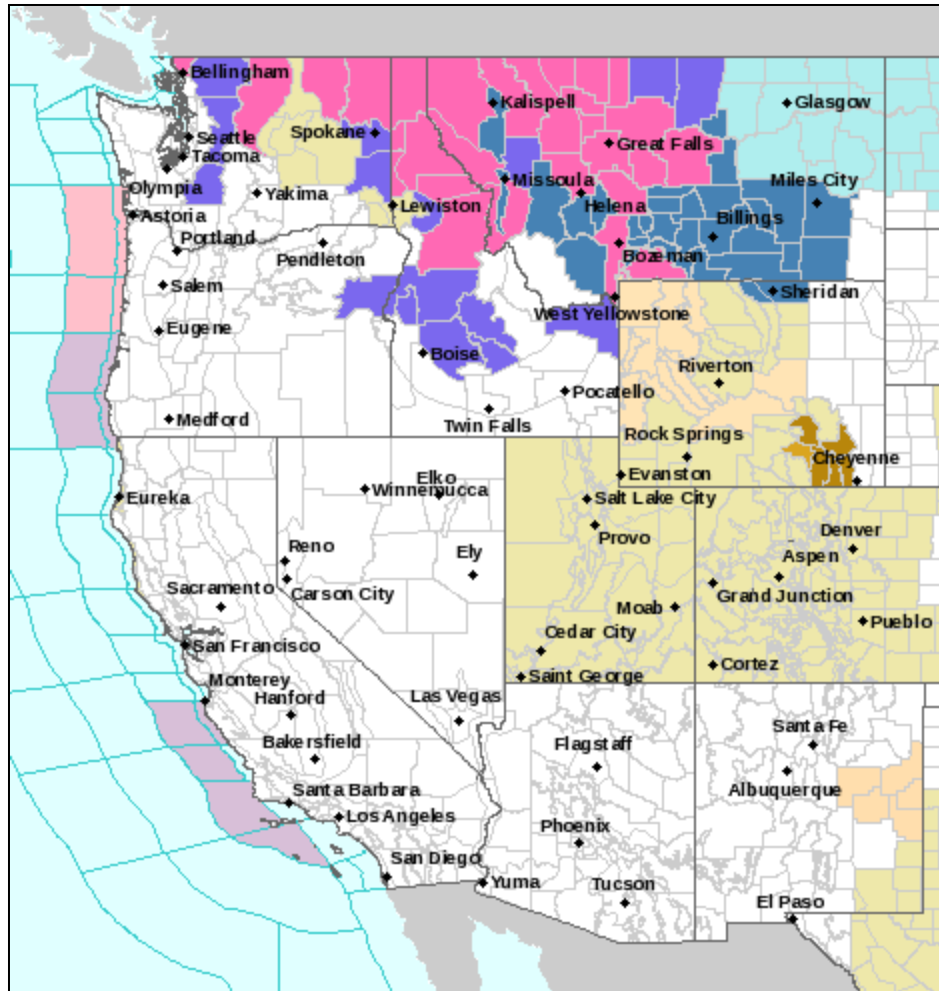

NORTHERN CALIFORNIA

High pressure will continue to produce mostly dry and mild weather throughout the region during the upcoming week. However, occasional Pacific storm systems passing through the Pacific Northwest will produce rain and mountain snow there, and light rain is possible over the state line into far NW CA. This pattern is expected this afternoon and a stronger one is expected late Friday through early Saturday. S-SW winds will gust to 25-35 mph over the higher terrain and from the Cascade-Sierra crest east late Friday. Light (gusts to 25 mph) N-NE downslope surface winds are expected Sunday and Monday from the western Cascade-Sierra slopes to the coastal mountains, and a somewhat stronger N-NE wind pattern is expected beginning next Tuesday. In general, afternoon temperatures will be above normal much of the upcoming week, with cool morning lows. Inversions will form in some valleys and canyons and air quality will diminish in those areas.

SOUTHERN CALIFORNIA

A strong ridge of high pressure over California will bring warm and dry conditions to the region through the middle of next week. Maximum temperatures will be 10 to 15 degrees above normal, with upper 50s and 60s across the mountains and San Joaquin Valley and 70s to low 80s in the coastal valleys. Minimum humidity will be mainly in the single digits and teens away from the coast and Central Valley. Winds will be light through the middle of next week.
